

## JHF Sponsorship Opportunities:

### It Takes a Community of Committed Partners

It takes collective work and responsibility to realize the events, programs and opportunities offered by **JHF**.

Forward-thinking organizations that celebrate diversity are encouraged to provide support in the form of cash contributions, products, resources and services.

### FOUNDATION SPONSORSHIP

Foundation sponsorships help support the continuance and growth of JHF, including the Living Library, educational programs and culinary scholarships.

### Foundation Sponsorships help JHF to:

- \* **Fund JHF Program Initiatives** like the JHF Living Library and family recipe archive project, Chefs Abroad, and Culinary Conversations pod and video casts.
- \* **Bring JHF programs to schools, community centers** and cultural institutions. JHF programs aim to raise awareness among Americans of all ethnic backgrounds about our shared food history, the importance of proper nutrition, slow and sustainable food and the myriad ways culture is exchanged through food.

- \* **Introduce food history and culinary literacy** to young people seeking an exciting career path and a way forward.

## EVENT SPONSORSHIP

Event sponsors support JHF dinners and programs on a per-event basis. Events include the *American History on a Plate* dinner series, *wine and spirits* tastings, demonstrations and a rich variety of culinary and educational events.

### Event Sponsorships help JHF to:

- \* **Increase public awareness** of the Foundation’s mission and program initiatives
- \* **Showcase a new generation of African American chefs** and culinary professionals
- \* **Create new career opportunities and connections** for aspiring chefs and food industry veterans,
- \* **Expand understanding of African American food arts** beyond the overused “soul food” catchall to reveal the rich blend of culture, fusion and culinary artistry unique to the creation of American cuisine.

- \* Educate all Americans on slow and sustainable eating and farming at this critical time in examining the nation's industrial food system, agricultural and environmental practices and food waste.
